GENERAL STRIKE CALLED IN RUSSIA

Condition of the Empire To-Day is Worse Than at any Previous Time

St. Petersburg, Dec. 201—The call for a general strike throughout Russia to begin Thursday at noon, has been issued. The call is approved by the union of unions, union of peasants, and general railway union and councils of worken of St. Petersburg and Moscow. A response was received from the railway men of Moscow who are unanimously for the strike. The feaders have declared their ability to stop every railroad to Russia. With the Baith, provinces in arms, with Poland only held in their ability to stop every relifroid in Russia. With the Battia-provinces in arms, with Poland only heid in check by bloody repression, with the dread spectre of famine stalking through the interior and robbing the Government of its last hope, the loy-aity of the Mujiks, the situation has never, not even during the inpoless days of war, looked so desperate as itolay, and fomorrow may hend the final disintegration of the Russian Smptre. The Czar is poweriess, the flaceld tool of his fawrs, and it is certain that afready he has perfected preparations for an early flight if the last concession avails not to save the situation. Both sides have lined up for battle. There is an air of suppressed excitement throughout the city, streets have a holding appearance in hour of the Emperor's "name day," and are crowded. Collisions between the reas and logalists are momentarily expected, but forecased.

BUSINESS RUSHING AT POST OFFICE

The Christmas rush is giving the focal post office employees a very busy fitne these days and for the past week steep to them has been only such snatches of slumber as they could manage to eatch between times. Last week was a hummer in the local department of King Edward's large concern, but this week promises to cellipse all previous records by a large margin. Nothing like the present rush was ever experienced in

cal department of King Edward's large concern, but this week promites to cellipse all previous records by a large margin. Nothing like the present rush was ever experienced in Edmonton before.

Nothing shows better the prosperous condition of the people of this country than the unprecedentedly large number of parcels being sent to eastern and old country points. The most of the old country points. The most of the old country parcels of course, went out last week, and the returns show that there were serve then times as many parcels handled here for Great Britain and Employ as ever feed for an record which will probably be unequalied by any other poet office in Canada.

The incoming rush of parcels commenced on Monday evening, when 100 actios of mail were received on one train. The sorting of this mail kept the post office feers up until 4 obcoleck on Tensday morening and they were back again at their posts three hours lafer to attend to the delivery. On Tuesday evening the 4 hours have to attend to the delivery. On Tuesday evening the folications are for a rong ession tonight with no rest until the Christmas rush is over. The jost office quarters are crowded and there is not room to put on more hands to handle the work.

The money order business is also unspreadentedly large, 19 money orders being Issued to the value of \$1.485.00 on Monday and Tuessay alone, Bedies this, there was an immense number of postal notes and registered letters sent out, showing that the presents in coin of the realm at the pre

A MILLION FOR FARMERS.
Speaking at Guelph, Ont., Prof. C.

A. Zavitz fold the Ontario Experimental Union low a million dollars a year had been added to the income of Ontario farmers. In 1889 Mr. Zavitz, acting for the Union, brought to Quelph from far Manchuria a handful of a variety off six-rowed barley, then grown there, called the Mandesheurf. None of this meagre quantity was allowed to fail by the wayside, and each year's yield was so carefully husbanded and distributed that this year there were 500,000 acres of it grown in Ontario. This was not all, however, for this year's results were a yield of 37.7 bushels to the acre, compared with 34.3 bushels from Chesfrucker, a German variety, which came mext in yield.

The only matter of vital importance to come up, was Mr. Lines' notice of motion to make the annual fee şi0 in place of S5, as heretofore assessed. As the time is at hand when members will be asked to resew their subscriptions, this is a matter of some importance. Falling action by the board the secretary and un-officially included the secretary and in-officially included the secretary and in-official included the secretary and in-o

CANADIAN BOY

Ottawa, Dec. 19.—A caldegram was received today by Earl Grey congratulating Canada upon the brilliant victory of Herbert Rose, an Oxford student, who has won the Rhodes scholarship. The message reads, "Trustees congratulate Canada on Rose's success in Winning, (Signed) Ireland and Craven. Rhodes Trustees." This is the first time on record that a second year man has captured the honors. The winner is a son of Rev. Dr. Rose, who formerly compiled a paint in this city.

THE MOST UP-TO-DATE STOCK OF CHRISTMAS GIFTS IN TOWN.

Kenneth C. Pickel,

The Cash Jeweler OPPOSITE NEW MERCHANTS BANK

WHO but would be pleased to receive a Bible as a Christmas Gift? History repeats itself every year in an increasing demand for the sacred Book as the most appropriate and best approciated of gifts for man, woman or child. We have on display the best assortment of Bibles we have ever put in our showcases. Here choice will be an easy matter, because there are just the types, just the bindings, and just the styles, to meet all tastes and prices. We also show an exceptionally fine line of Hymn Books, Hymnals, Prayer Books, and kindred volumes. We emphasize them because they make the best and most lasting of Gifts, and are appreciated by old and young alike. We ask specia attention to our line of Poets in leather and cloth bindings. A volume of poems is always unitable. It is an evidence of good literacy taste on the part of the giver, and is appreciated equally by the recipient.

the work of organization in Edmonion, was no doubt read with interest by the majority of our readers, and it may also be of interest to Danny of cham, who are perhaps not early well acquainted in that part of Alberta, to know a little more provided by the provided by the little more provided by the little p

continue. But a struggle is celling under how by the Retail Merchant's Association of Western Canada, to have matters so changed that instead of receiving goods for nearly a full year on credit, the farmer will be brought into line to arrange to pay for lis goods until the next cop with the proceeds of the former one. There is no reason why in the majority of cases it should not be so, and Edmonton in the Geginning of its career as mercopolis is the fartific and resourceful north western portion of the Canadian west sees clearly that now is the time to adopt principles that will be beneficial to the country. With Eddyforesight whey eagerly grasped the community of the country. With the control of the country with the community of the country of the community is to benefit by this movement.

When the great province of Alberta was carved out of the map of the west, it was not by accident, now without due consideration, that our legislators fixed on Edmonton as the provisional capital. There are man reasons why Edmonton is entitled to that honor.

Edmonton is 318 miles north of the international boundary, the southern limit of the new province; and 446 miles south of the northern boundary of Alberta. It is 210 miles east

of the boundary between Alberta and British Columbia, and 150 miles west of the eastern boundary of the province. It is therefore, very near to the geographical centre of what is destined to be one of the greatest.

The province of Algerta contains some 281 thousand square miles of berritory, and is capable of producing annually more wheat than the present annual production of the United States. The Erichest, most fertile and most feetle and the feetle and most feetle and the feetle and most feetle and feetle and

And beyond is an enormous territory, large enough for an empire, stretching away to the Arctic Circle nearly two thousand miles from Edmonton, which, like Northern Alberta, is entirely dependent on Edmoton as its base of communication, and for supplies of every disprintion.

Edmonton is essentially a modern city. It was Searcely a village ten years ago, and nearly three quarters of it have been built during the last God years of 2.952 people, while today a conservative estimate places in figure at 2.550. The first point that occurs to one familiar with the circumstances is Edmonton's very strong strategiesd position as a distribution and all manufacturing centre. It is for this feature that it owes to like the search of the search
